TERMIX PROFESSIONAL BRUSHES

Made in Spain

- ⊙ **Aluminium barrel with circular vents** - retains heat longer during the drying process for faster & better styling (50% faster than wooden brushes)
- ⊙ **High performance bristles** - high heat-resistant & ionised 6.6 nylon bristles which have greater resilience to recuperate the initial stiffness
- ⊙ **Ergonomic & lightweight grip** - made of polypropylene, a highly resistant and non-sticky material. There is a sectioning pik contained in the handle.
- ⊙ **Heat assembled** - a perfect union of all components under pressure. Through this process a dilation of the plastic material is produced, ensuring extreme resilience & durability.
- ⊙ **Made in Spain** with Termix's famous 2 year warranty

Set of 5 Brushes
17, 23, 28, 32, 43mm
