OMBRE COLOR

Balmain Hair explored the boundaries of color; ombre color. Amazing hand dyed blends of natural shades which gives your hair luxury, subtleness and depth for the perfect sun kissed look.

Richard Guliker, Art director

"We developed a unique palette of shades we found around the world. Colors like New York blond, Rio brown, Barcelona red are just few of the Clip-In Weft colors we have designed. Since each color consist of regrowth, high/

lowlights,tip tones and sunrise & sunset, we have been able to create the most commercially versatile collection ever created."

SUNRISE & SUNSET

The Clip-In Weft can be worn both sides. Each side has its own feeling; the sunrise side is the lighter side and is layered. On the sunset side, the length is solid and the colors darker.

The perfect solution for clients that want a quick make-over without a permanent attachment.

TIPS & TRICKS

How to wear the Sunset side?

1. Remove the clips from the Sunrise side (tool: Balmain Hair stitch ripper).
2. Place the clips to the Sunset side.
3. Sew the clips just below the Soft Blend Edge.

HAIR CARE

Hair care is essential to maintain healthy, shiny, beautiful hair. Hair with extensions needs a little extra nourishment and the range of hair care products from Balmain Hair has been specially developed to give the extra nourishment while keeping your natural hair in perfect condition. It is essential you use this to validate the 6 month hair quality guarantee.
